

Team Name: Team4 (PantryPal)
Report Number: Jan 27 to Feb 2
Reporting Week: 3

Summary of work completed in prior week:

We met in class on Tuesday and Thursday and created a plan for our project. We went through our requirements interview notes and created a priority list based on them. We also created a website using GitHub Pages and a second repository for documentation. We worked on the website, adding html and css to create tabs for displaying the relevant information.

Summary of work planned for next week:

Begin creating the frontend of our application using HTML and CSS. We will work on a UI and color scheme while using fake data to make an appealing application.

Open issues and action plan to resolve them:

Familiarizing ourselves with HTML, CSS and Java. We intend to work on side project websites to learn these languages and rebuild familiarity.
