Team Name: Team4 (PantryPal)
Report Number: Feb 9 to Feb 16
Reporting Week: 5

Summary of work completed in prior week:

Elijah made a basic web application. We were able to meet twice and get a better idea of the scope of the project and figure out who will develop each requirement.

Summary of work planned for next week:

Continue with frontend design and development, using our baseline for HTML to create an Angular project.

Open issues and action plan to resolve them:

More practice with HTML and CSS, begin integrating Angular to act as the base for our frontend. Try different designs and color schemes for the website and decide on one.
